The colorful academic regalia dates from the first European universities in the Middle Ages. Academic costume has been in use in the United States since colonial times and is traditionally used for graduation convocations.

The mortarboard is the standard cap. The tassel color, as established by an intercollegiate commission, indicates the subject field.

apricot	nursing
light blue	education
dark brown	fine arts
dark crimson	humanities
silver gray	communication
drab	commerce
sage green	physical education
orange	engineering
pink	music
scarlet	religion
white	arts, letters, languages, history
golden yellow	science, mathematics
gold	doctor of philosophy, doctor of education, doctor of theology, doctor of arts

The length of the hood and the width of the velvet indicate the level of the degree. The doctor's hood is quite long, has two tails, and has a five-inch-wide velvet. The master's hood is shorter than the doctor's and has a three-inch-wide velvet. The bachelor's hood is shorter yet and has a two-inch-wide velvet. The color of the velvet indicates the field of study. Blue indicates a doctoral degree. Dark brown indicates a Master of Arts degree. White indicates a Bachelor of Arts or a Master of Arts degree. Scarlet indicates a Bachelor of Divinity degree or a Master of Divinity degree. Yellow indicates a Bachelor of Science degree. The colors in the lining of the hood are the University colors.

The gown's traditional color is black. The distinguishing feature of the master's gown is the tippet sleeve. The doctor's gown has two distinguishing features. It is cut much fuller than the bachelor's or the master's gown and has velvet panels on the sleeves, around the neck, and down the front. These panels may be black or the color that symbolizes the subject field in which the degree was earned.
